Portfolio: my-portfolio-nu-beige-97.vercel.app | Dynoserve: dynoserve.com

PROFESSIONAL SUMMARY

Senior Software Developer with **5+ years of experience** building production web applications, enterprise portals, dashboards, booking platforms and business systems. Strong hands-on expertise in **React, Next.js, TypeScript, JavaScript, Node.js, PostgreSQL and REST APIs**, with experience in architecture, performance optimization, SEO, authentication, payments, admin panels and CI/CD. Experienced in client-facing technical discussions and coordinating end-to-end product delivery.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript ES6+, Vite, Redux, HTML5, CSS3, Tailwind CSS **Backend:** Node.js, Express.js, REST APIs, Prisma **Database:** PostgreSQL, Supabase, MongoDB **Architecture:** SSR/SSG, Microfrontends, Module Federation, RBAC **DevOps:** Git, GitHub Actions, CI/CD, Linux, Webpack, npm **Integrations:** Razorpay, Maps/Live Tracking, Third-party APIs **Mobile/Team:** React Native, Flutter, Java/Spring Boot through multidisciplinary delivery team

PROFESSIONAL EXPERIENCE

Altruist Technologies Pvt. Ltd. — Software Engineer / Senior Software Engineering Responsibilities | Aug 2021 – Present

- Built and maintained high-traffic platforms including **News18 Group, CNBC TV18 and Storyboard18** using React/Next.js and modern frontend architecture.
- Increased Storyboard18 organic search impressions from ~100K to ~180K and News18 Group impressions from ~2M to ~4M through SSR, semantic HTML and structured metadata.
- Reduced Storyboard18 page-load time from ~10s to ~3s using SSR/SSG, lazy loading and image optimization.
- Built enterprise portals and dashboards for logistics, telecom and workforce management with RBAC, live tracking, analytics and business workflows.
- Developed full-stack applications with Next.js, Node.js, PostgreSQL, Prisma and Supabase, including authentication, booking workflows and Razorpay payments.
- Built a workforce management platform used by **500+ employees** for task assignment, progress tracking, dashboards and permissions; contributed to CI/CD and production delivery.

SELECTED PROJECTS

- **Bharat Caravans:** Full-stack travel booking platform with 12+ user-facing pages, optimized performance, booking workflows and admin panel using microfrontend architecture.
- **ExploreSathi:** Full-stack travel/trip-planning platform with authentication, booking, PostgreSQL/Supabase, Prisma and Razorpay integration.
- **Secova / Secova Health:** Health-tech public websites and benefits administration portal with responsive UI and portal/admin experiences.
- **Tawseel Logistics:** UAE enterprise fleet portal covering vehicle/rider management, GPS tracking, invoicing, expenses, analytics and RBAC.
- **JobTracking:** Workforce platform for 500+ employees with role-based access, task assignment, progress tracking and dashboards.
- Additional production work across **JanakpurZone, Glow Networks/TRACE, Beta Labs Telecom, Teligent Telecom, CMO Axis, Altruist World, The Altruist India and The Altruist Hotels.**

CORE STRENGTHS

Full-Stack Web Development | React / Next.js | Admin Panels & Dashboards | SaaS | CRM / ERP | E-commerce | Booking Platforms | REST APIs | Payment Integration | Performance & Technical SEO | Microfrontends | Technical Leadership | Client Communication | End-to-End Product Delivery

EDUCATION

M.Tech, Computer Science & Engineering — Swami Vivekanand Institute of Engineering & Technology, Punjab | 2025 | CGPA 8.63/10 **B.Tech, Computer Science Engineering** — Swami Vivekanand Institute of Engineering & Technology, Punjab | 2018–2022 | CGPA 8.63/10
